SUMMARY

Computer Science student with experience building responsive web and mobile applications using React, React Native, JavaScript, and PostgreSQL. Experience in frontend development, API integration, and UI implementation, with interests in creating scalable and user-focused applications.

TECHNICAL EXPERIENCE

Comfee

- Developed a mobile application using React Native that helps users discover nearby coffee shops
- Implemented search filtering and location-based discovery features for improved user experience
- Built a user review and rating system to support community-driven recommendations
- Added business features allowing verified cafe owners to manage profiles and post promotional content to engage customers

Tech Access Reskilling with AI (TARA)

- Developed an AI-powered career platform using Python and Flet for resume analysis and job recommendation workflows
- Integrated APIs and implemented resume processing features with analysis results generated in approximately 10 seconds per user
- Contributed to feature planning and user-focused improvements to enhance platform usability and workflow efficiency

BlackJack Mafia

- Developed a mafia-themed Blackjack game using the Godot Engine with strategy-based gameplay mechanics
- Designed immersive crime-inspired game interactions and core gameplay systems
- Implemented game logic, user interaction flows, and themed visual elements

SKILLS

- Languages: JavaScript, TypeScript, C/C++, Python
- Frontend & Mobile: React.js, React Native, Flutter, HTML, CSS
- Backend & APIs: Node.js, REST APIs, JWT Authentication, API Integration
- Databases: Postgresql, Supabase
- Tools: Git, Github, Figma

EDUCATION

Bachelor of Science in Computer Science

University of Philippines Cebu

Lahug, Cebu City

2023-Present

Science, Technology, Engineering and Mathematics (STEM)

Science and Technology Education Center

Lapu-Lapu City

2023

ADDITIONAL EXPERIENCE

- Can You HackIT - The IBPAP Challenge (Hackathon)
- Overall Head of Komsai Week ByteBlitz Programming Competition 2025 & 2026
- Komsai Week Hackathon 2025
- Technology Application and Promotion Institute CLUSTERICE Finalist 2024
